

Facility Maintenance and Inventory Management

CMAA ClubSolutions has partnered with FacilityDude to provide web-based facility and inventory management solutions to clubs across the country. By participating in this program you will have access to industry-leading solutions and best practices that will help you improve member experience, mitigate risk and reduce operating costs.

Program Benefits:

- Protect your facilities and investments while reducing risk and operating costs
- Centralize and improve the consistency of maintenance and operations data being collected at your club
- Participate in education programs with peer facilities
- Access a library of preventive maintenance programs and routine actions that can improve common maintenance activities

The program includes the following FacilityDude solutions:

1. MaintenanceEdge™

MaintenanceEdge enables you to manage your

facility with centralized requests, automated maintenance workflow, and simple reporting, to protect your assets, reduce operating expenses and liability exposure. Reduce your total cost of ownership by 70 percent compared to desktop software systems and generate 15 percent or more in efficiency gains.

Suite of 3 applications:

- Work Order
- Planned Maintenance
- Work Order Wireless

2. InventoryEdge™

InventoryEdge helps streamline requests, orders, issues, track inventory and most of all, control costs. It provides the insight you need about how much you're spending to leverage for procurement savings. Reduce inventory shrinkage by 2-3 percent and dead inventory by 1 percent.

Suite of 2 applications:

- Inventory
- Inventory Wireless

Prices:

Available for purchase at a discount. Please email for individual solution estimate.
