## Automatic External Defibrillator (AED) Program

As a visible demonstration of our commitment to life safety and sound risk management, CMAA ClubSolutions has partnered with CardioReady to develop a program that will make it easier and more affordable for clubs to adopt Automated External Defibrillator (AED) programs and prevent death from Sudden Cardiac Arrest (SCA).

CardioReady's is a specialist company exclusively focused on AED Program Management. Using a patented process, they provide clients with a turn-key, comprehensive emergency response plan.

### Program Benefits:

- **Professional site assessment** – Determine the optimal number of AEDs needed and proper placement to ensure prompt deployment. Comprehensive annual evaluation and on-site inspection by trained experts.
- **Device procurement** – We work with all major manufacturers.
- **Cardiac emergency response plans** – Written readiness procedures to follow in a cardiac emergency.
- **Effective maintenance program** – Online and remote access to CardioReady Certification Center and Maintenance Minder Mobile App for tracking and

documenting responder training certification dates, battery and pad expiration, and device maintenance checks.

- **Ongoing and structured communication** – Deploy program details to employees, members and guests.
- **Compliance** with all state and federal mandates.
- **Assessment** – Comprehensive annual evaluation and on-site inspection by trained experts.
- **Consultation** – unbiased assistance with equipment selection and optimal placement.

### Prices:

- Savings of \$480 or more on individual AED purchases.
- Discounts on batteries, pads, cases and other equipment.
- Minimum discount of 10 percent on CardioReady Certification.
